I am a nationally certified Speech Language Pathologist who holds National ASHA CCC's certification, state licensure and a teaching certificate for exceptional children. I have 13 years of experience as a pathologist in multiple settings; including geriatric nursing homes and hospitals, adult daycare facilities, preschool settings, home health and public/private schools. I have been a supervisor for speech language pathology assistants, KTIP interns, and undergraduate/graduate students for multiple universities. I am currently the SLP Region Leader for Region 1 in Jefferson County Public Schools and have been recognized as a therapist who consistently excels within the district. I believe that children with disabilities can experience success in the classroom with the support of trained professionals who are dedicated to differentiating instruction to meet the individual needs of a child.
