

What is NTI?

Non-Traditional Instruction -- NTI -- is remote learning. Our NTI plan ensures students continue to learn and engage with their teachers while schools are closed due to the Coronavirus outbreak. Students will be able to access and complete activities either online or through hard copies -- whichever is most comfortable and convenient for them and their families. A limited number of Chromebooks will be available for student use if they do not have a computer and they choose to engage with their teachers and complete their lessons online.

The [JCPS NTI homepage](#) is your student's go-to web page to access their lessons, teachers and learning. For some help on navigating the NTI page watch this [video](#).
